Countertop				

## CARE & MAINTENANCE

Wipe up any spills on tile immediately & clean the area using a damp cloth or sponge.

Dust surfaces regularly to remove any debris as this can be abrasive to the surface.

Use a damp cloth or sponge with an all-purpose household cleaner that is non-oil-based and has low VOC's to clean glass "as needed".

Vinegar and water mixture is acceptable to clean GIO Stained Glass Mosaics.

After using cleaning solutions, wipe down entire area with a clean cloth/sponge and clear water to remove any residue left behind.

Do NOT use cleaning wax, oil based cleaners, ammonia or products containing acid or bleach as part of regular maintenance.

Do NOT use abrasive cleaning products such as scouring or steel wool pads.
